

## WI Week of River Action 16 - 22 September Tell us about your plans

Last year in September, as part of the Clean Rivers campaign, members arranged stunts, river cleans, protests and yarn bombings to raise awareness the state of our rivers in their communities. We also spoke to MPs and gathered members dressed up as aquatic creatures for a mini-protest outside the Houses of Parliament.

This year we are repeating the success. Between 16 and 22 September, we will again hold our WI Week of River Action. All members are encouraged to keep spreading the word, that too little is happening too slowly to clean up our rivers.

The Week of River Action will take place as a new parliament and government settles into their offices, so this year is a crucial one! We are encouraging all members to continue making noise about river pollution to make sure the issue stays on decision makers' minds after the election.

Find out how to get involved, and access resources to help plan your own stunt or community event [on MyWI](#) and don't forget to [tell us about your plans!](#)
